Project n°:2022-1-FR02-KA220-YOU-000088895, Social Sustainability Strategies for Youth (YESSS)
This project has been funded with support from the European Commission. This publication [communication] reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

The first multiplier event of the YESSS project took place at Hub Nicosia on the 13th of May 2023 from 10am until 2pm. The daily program was planned around the key thematic of the project such as sustainability, the SDGs and Social Entrepreneurship which attracted a total of 46 participants. The participants were mostly animated by getting creative with repurposing plastic bags at the workshop we put in the program run by precious plastics but it is also important to mention that many participants were interested in understanding how to legitimise their social enterprise ideas in the context of Cyprus hence found our expert talk on the matter extremely beneficial. Many were interested in the impact assessment tool that we will be developing through this project but this conversation also led us to a critical debate on the universality of terms that are sometimes used on the policy level that don't necessarily reflect the impact that grassroots organisations want to put into effect for marginalised communities. Overall the conversations were fruitful, people got a chance to network between them and somewhat form a network of people interested in social entrepreneurship and the audience of the project's tools grew.
